

# Save Time! Save Water!

New Watering Restrictions for Eastern Standard Time required by St. Johns River Water Management District (SJRWMD) begins, Sunday, November 1, 2009 (Standard Time). Adjust your timers when you turn back the clock!

**ODD numbered or no address may water:**

**Saturday only**

**No watering between 10 am and 4 pm on designated day**

**EVEN numbered addresses may water:**

**Sunday only**

**No watering between 10 am and 4 pm on designated day**

**Non-residential watering days:**

**Tuesday only**

**No watering between 10 am and 4 pm on designated day**

## Why the new watering schedule?

- SJRWMD has mandated the conservation of valuable water resources by reducing watering days.
- In accordance with this requirement, and to implement the above schedule, the City of Eustis passed Ordinance #09-27 regarding water restrictions for Eustis water customers. New landscapes may be watered any day of the week for the first 30 days as needed. Then every other day for 30 days as needed. Once the 60 days have passed, all water users are required to follow the above watering restrictions

For more information, please call the City of Eustis Water Department at: (352) 357-5618, extension #4
