For Immediate Release –

Comprehensive Planning Visioning Survey

EUSTIS – Students from the University of Central Florida (UCF) will be contacting numerous Eustis residents via the telephone beginning this week as a part of a comprehensive survey being undertaken by the City of Eustis. The students will be asking residents questions on a variety of different subjects ranging from City services to City growth. This survey should only take 10-15 minutes and residents are encouraged to take part.

The information gathered will be very helpful in updating the City Comprehensive Plan for the next 10 years. The current City of Eustis Comprehensive Plan covers the years 2000-2010.

The survey data will provide the essential information needed regarding residents opinions concerning the future growth of Eustis and the services it provides. Following the survey, a series of community visioning sessions are planned at different locations around the City to further obtain citizen involvement. It is anticipated that this two-pronged approach will give the City Commission the necessary data and information required to update the City's Comprehensive Plan.

Any questions regarding this matter may be directed to the Division of Development Services at (352) 483-5460.
