

Welcome to the City of Eustis quarterly newsletter! Our City offices will be closed for the following observances (Federal Holidays): January 2 for New Year’s Day and January 16 for Martin Luther King Jr. Day.

City Projects:

Bates Ave WWTP Expansion: The Phase 1 engineering package has been completed. Phase 2 Engineering has been awarded, and the team is now in design to provide the construction plans. The Engineer and Construction Manager provided a cost estimate that was submitted to City staff and are currently reviewing.

Eastern WWTP Transfer Pump Station: This project will coincide with the reclaim pond lining project. Construction site crews have finished the installation process on the pump station and have started testing the new equipment and are in the final stages of completing the project.

Woodward Avenue: The project was completed by the middle of December.

Umatilla Wastewater Interconnection with the City of Eustis:

The City of Umatilla’s contractor completed the installation of the wastewater pipe and fittings in order to make the connection to our Wastewater Treatment Plant. The crews installed new piping and resurfaced the roads and curbs on Pinkney St., Hollywood Ave., and Bates Ave. Currently, the crew is continuing to work on the electrical and mechanical components.

Coolidge Street Improvements: Utility improvements will take place along Coolidge Street. Engineering design included field investigations, water / wastewater modeling, and a developed plan for construction procurement assistance. City staff and engineering are recollecting all the data and are performing field investigations before starting any construction.

City of Eustis Commission 2023
