

The City of Eustis quarterly newsletter is filled with information on City projects, events, employment/board opportunities, and helpful tips. For more detailed information, please visit our website at eustis.org

Commission meetings are held on the 1st and 3rd Thursday of every month in the City Hall Commission Chambers located at 10 N. Grove St. at 6 p.m. You can subscribe for meeting notices online at: eustis.org/subscribe meetings

Our City offices will be closed in observance of Memorial Day, Monday, May 29, 2023.

City Projects:

Bates Ave WWTP Expansion: The Phase 1 engineering package is completed. Phase 2 Engineering was awarded, and the team is now in design to provide the construction plans. The Engineer and Construction Manager provided a cost estimate that was submitted to City staff and are currently reviewing.

Coolidge Street Improvements: Utility improvements will take place along Coolidge Street. Engineering design included field investigations, water/wastewater modeling, and a developed plan for construction procurement assistance. City staff and engineering collected all the data and performed a field investigation before construction starts. City staff is evaluating dates to secure goods and services needed to start construction.

Eastern WWTP Transfer Pump Station: This project is completed. It coincides with the reclaim pond lining project. Construction site crews finished the installation process on the pump station and the new equipment.

McDonald Ave./McCulluchs Alley Sewer Upgrade:

FDEP permit has been applied for. FDOT permit has been submitted, and the City is awaiting a response.

Umatilla Wastewater Interconnection with the City of Eustis:

The City of Umatilla's contractor completed the installation of the wastewater pipe and fittings in order to make the connection to our Wastewater Treatment Plant. The crew installed new piping and resurfaced the roads and curbs on Pinkney St., Hollywood Ave., and Bates Ave. Currently, the City of Umatilla is continuing to work on the electrical and mechanical components. Both the City of Umatilla and our City staff are coordinating the interconnect piping flushing.

Fire Dept. Safety Tips - Preventing Wildfires

Increase your home's chance of surviving a wildfire. Choose fire-resistant building materials and limit the amount of flammable vegetation in the three home ignition zones. The zones include the Immediate Zone: (0 to 5 feet around the house), the Intermediate Zone (5 to 30 feet), and the Extended Zone (30 to 100 feet).

To reduce ember ignitions and fire spread, trim branches that overhang the home, porch, and deck. Prune branches of large trees up to 6 to 10 feet (depending on their height) from the ground. Remove plants containing resins, oils, and waxes. Use crushed stone or gravel instead of flammable mulches.

Ensure your home and neighborhood. Have legible and clearly marked street names and numbers. Driveways should be at least 12 feet wide with a vertical clearance of 15 feet for emergency vehicle access.

New Eustis Police App Coming Soon!

A police app will soon launch for a convenient way for residents to stay informed within the community. The app will provide timely and effective communication as well as transparency. It will include many useful features including code enforcement, crime-line tips, sex offenders, community engagement, news, feedback, and a contact us tabs.
