Ferran Park Seawall Rehabilitation

The City Staff has been actively monitoring the seawall for several years, tracking the crack widening while securing funding for necessary repairs in the City's Capital Improvement Plan.

The City hired Dredging Marine Consultants to design a cost-effective bulkhead wall repair which involves the following:

- Driving 8-inch diameter steel pin piles to design tip elevations on the waterward side of the bulkhead wall.
- Filling the pin piles with concrete and encasing them in additional concrete up to approximately one foot below the mudline.
- Replacing the existing steel cap to ensure structural integrity and longevity.

This project ensures the long-term stability and safety of the Ferran Park seawall, addressing existing structural concerns and enhancing the park's resilience for future use.

Paperless Incentive (\$25 Credit)

The City of Eustis is offering a one-time account credit in the amount of \$25.00 for any customer who signs up for E-Billing and ACH Direct Withdrawal for payments of utility bills.

Waste-to-Energy

The City of Eustis implemented a new Waste-to-Energy (WTE) program, replacing the traditional curbside recycling system, the week of March 3, 2025. Residents will no longer need to separate household trash, recycling, or yard waste. Collection service days will remain unchanged. The WTE process is recognized by the State of Florida as an approved recycling method.

Now Hiring Lifeguards

The Eustis Parks and Recreation Department is hiring Lifeguards. The position is Part-Time for less than 30 hours a week. Visit gov-ernmentjobs.com/careers/eustis to apply.
